

Working with Family Relationship

One of the reasons family therapy can be difficult is that families often appear as collections of individuals who affect each other in powerful but unpredictable ways. Family structure should be understood and examined, assessed with specific tools and concept. It helps clinicians and helping professionals to provide effective intervention in family.

By attending this workshop, you will

1. Learn to assess the family relationship by using Circumplex Model
2. Learn to understand the family dynamic from the perspective of structural family therapy

Counselors and social workers are welcome to attend this course.
